

SidneyPacific

November House Meeting

Tuesday, November 3rd 2015

Agenda

- SP Security Updates
- HVAC Updates
- New Officer
- Service Shout-Out
- Upcoming events
- Open floor
- Dessert

SP Security Updates

Security System:

- The security system is being upgraded to CCURE 9000 from CCURE 800. All buildings on campus are being upgraded from 800 to 9000.
- The new system will allow more flexibility to the community. (i.e. Unlocking doors for events)

Card Readers:

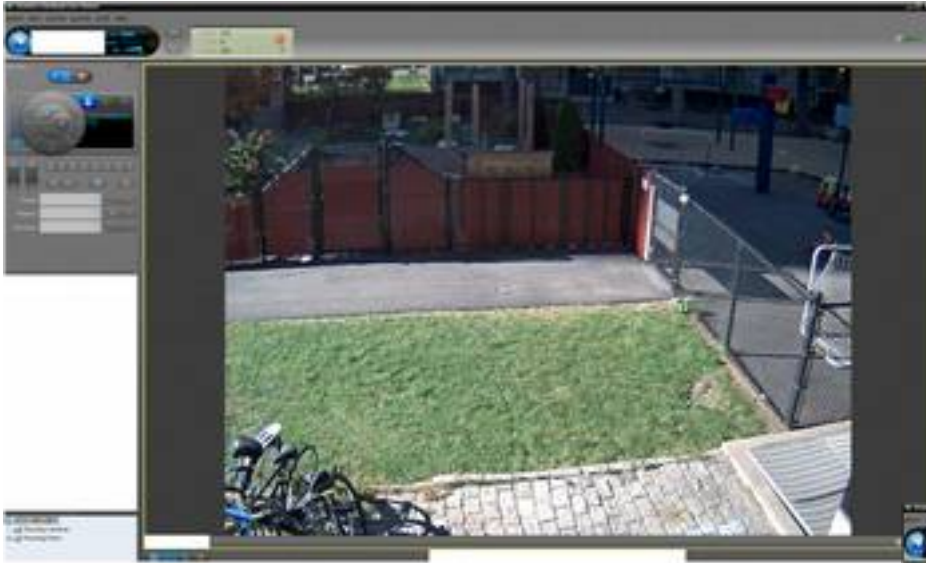

- All card readers will be upgraded to use proximity cards instead of swipe access.

SP Security Updates

Video:

- Cameras are located on the interior and exterior of the building to monitor entry and exit doors.
- Cameras are not used in living spaces or common areas.
- Camera footage is recorded and maintained **on secure servers at IS&T for only 14 days** by the Security and Emergency Management Office. This replaces the current DVR system.
- Requests for access to camera footage must come from the MIT Chief of Police
- The SEMO Policy can be reviewed at:
<http://web.mit.edu/semo/security/policies.html>

SP Security Updates

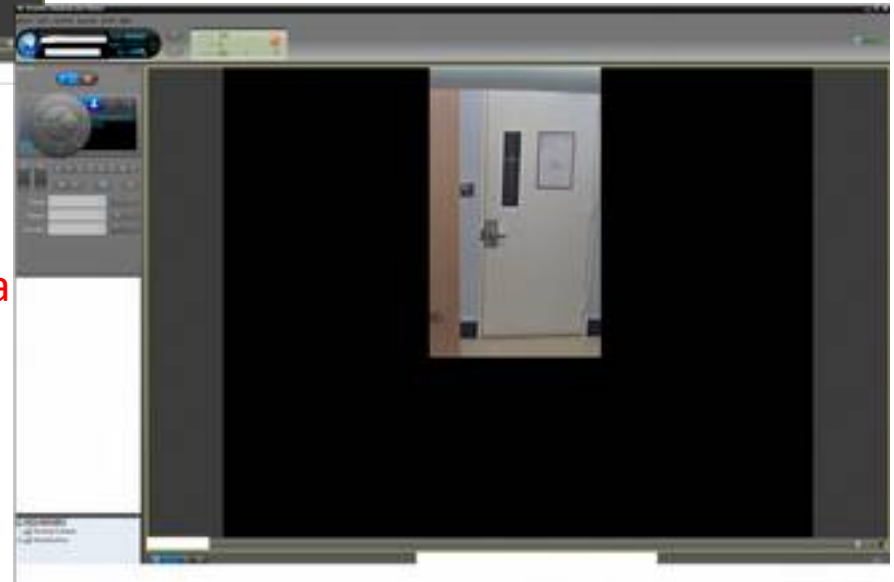

Camera with normal screen

- Cameras cannot turn or zoom
- Security/desk personnel can **only view live video feed** in accordance with SEMO policy.

Camera with screen blocked/'blacked out'

- Camera views are **cropped at the camera level**, not the recording device.
- Camera does not record any footage in the blackened area.

SP Security Updates

Floor plans redacted pending approval by housing

HVAC Updates

New Officer
